STREET SOLDIERS

THANK YOU LETTER FROM SOUTH AFRICAN STREET SOLDIERS

Sent: Thursday, October 23, 2008 1:29 AM

To: 'Dr. Marshall'

Hi Doc,

On behalf of the South African Alive & Free "contingency", a HUGE thank you and much appreciation for inviting us to the Baltimore conference. What a experience Yolanda, Deon and myself had the privilege to experience. Doc, you are really setting a standard in terms of leaving behind a legacy. I will feel like a failure if I do not play a instrumental part in taking Alive & Free in AFRICA to the next level, so much so that, if you let me have the contacts members of the other African countries, I will personally see to it that they do the honorable thing. You have my word on it.

Doc, Andre, Ms Estelle and Dani, you made us feel so welcome and very much part of you as family. Doc, also just again thank you for acquiring the sponsorship to make this possible for the three of us to attend the conference. If possible, could you let me know who the sponsor was so that we can do the South African thank you?

Dani, wow! You are the best when it comes to Events Management. There was not one element of the conference which did not display your mark of quality! Thank you so much for looking out for us. Pity the rand is having a hard time against the dollar to import your expertise to SA. But please, if you ever put feet on African soil, we would like to know about it.

Andre, I now know the whole of "Drey-man". Thank you for your hospitality and sharing some "head master" tenacity stunts which I truly enjoyed. Ms Estelle, thank you for being an inspiration to us to carry forward the movement in SA and showering us with your love.

Friends, Yolanda myself and Deon had the most enriching experiences during our visits to the Baltimore Dept of Juvenile Services and interviews with judges and masters. I will tell you more in the forthcoming reports.

I once again would like to reassure you of our commitment to the movement and to carry the flag for Alive & Free in Africa. Doc, please let us know what your schedule looks like for Feb/March 2009. We MUST have a Huge Africa Conference in 2009. I will forward electronic copies of Ubomi's latest Alive & Free SA newsletter later today. I will also forward video clips to Chris once I'm done with it.

Much luv and appreciation from the South Africans.

Whidney Prins (Mr)
